**Innovations in the name of aesthetics and technology**  
technology and design combine to create a contemporary corner composition.

- Easy cleaning • Water saving
- Hygienic • Rimless

### **Smarth International technology**

Smarth with its expertise, created a water saving flush systems which able to reduce the wastage of water. This gaurantees a considerable saving of water at each use. Water enters systematically and distributes evenly to the entire surface. With the rim-less technology, the toilet is cleaned with greater strength and without splashing, ensuring more effective results and maintaing the strengths and aesthetics of the products.

**Environment Friendly**  
extremely durable and quick to clean.

### **Smarth International natural**

While taking care of water emotions, we have completely respected nature's emotions too. Considering ENVIORNMENT at highest peak, we have used appropriate materials and used materials get recycled, creating less wastage. Minimal use of water in our bathware collection, proves our clever consumption without losing the aesthetics and technical quality. Sometimes all you need is just a tiny element of whole to add luxury to your bathroom.
